

# Maths - Week Starting 15th June – 8.3A and 8.3B

## **Lesson 1**

Go on to Mathswatch and find clip P6 – “Venn Diagrams”.

Watch the video carefully, answering the questions when you are asked to pause.

Then do the first “Interactive Question” in your books and enter numbers online.

Do the rest of the questions on line and submit answers.

## **Lesson 2**

Go on to MyMaths and find “Venn Diagrams 1”.

Work through the lesson first, then do the task.

Look at “Venn Diagrams” worksheet below and answer questions in your books.

## **Lesson 3**

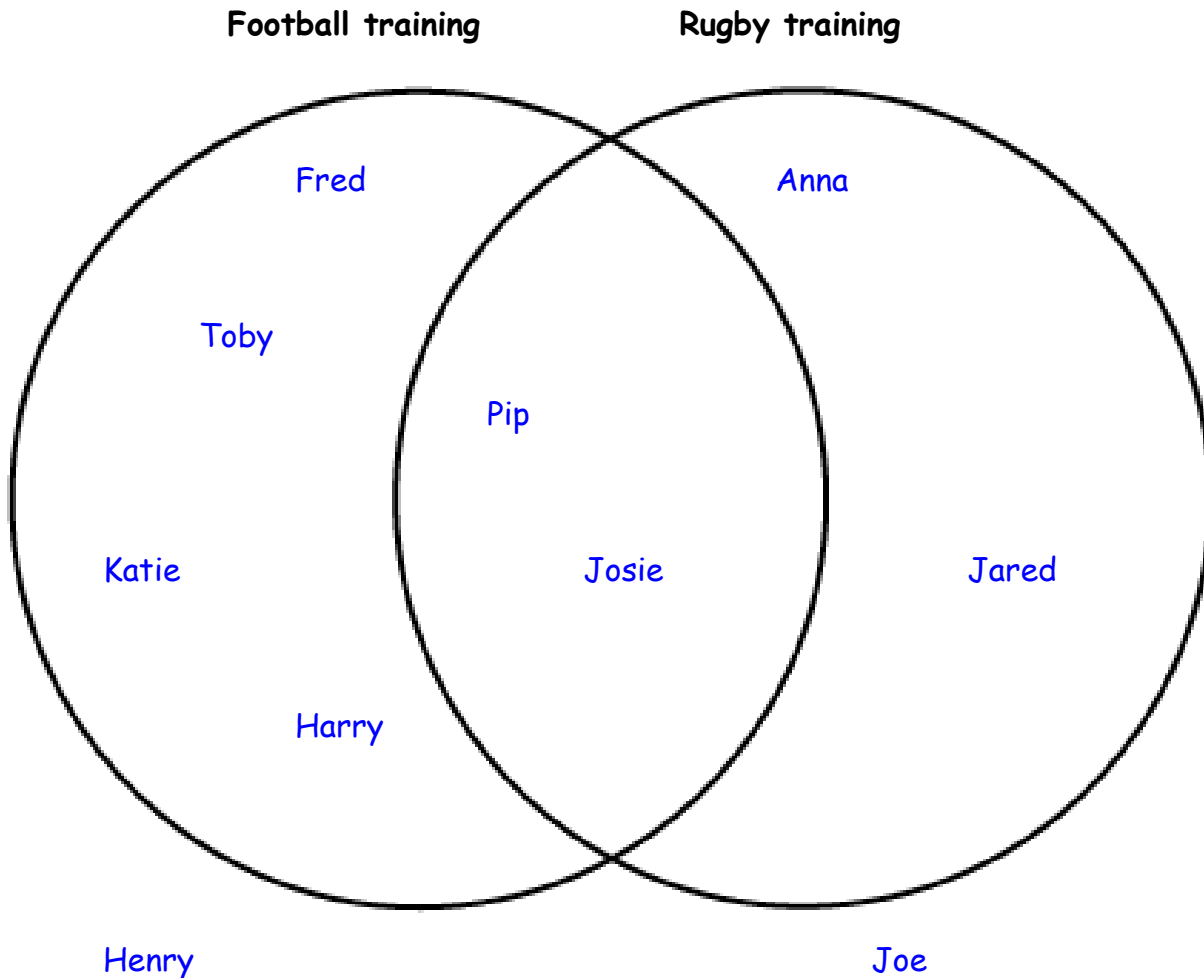

Go on to MyMaths and find “Frequency trees”.

Work through the lesson first, then do the task.

Copy frequency trees in your books.

### Venn diagrams.

Use the Venn diagram to answer the questions.

1. Who has football training?
2. Who has rugby training?
3. How many more children have football training than rugby training?
4. How many children took part in the survey?
5. Who has both football and rugby training?
6. Who has no training?
7.  $\frac{1}{2}$  of the children in the survey have football training.  
Is this true or false?
